

# Measuring Your Door: A Quick Checklist

**Remember to bring these measurements when you visit D&J Builders Surplus for expert guidance on choosing the perfect door for your home.**

**Width:** Measure the width between the door jambs at three points (top, middle, and bottom). Record the narrowest measurement.

---

**Height:** Measure the height of the door from the top of the threshold to the underside of the door jamb. Record the tallest measurement.

---

**Depth:** Measure the depth of the door jamb from the interior side to the exterior side.

---

**Swing Direction:** Determine the swing direction of your current door (inward or outward) to ensure you select the right replacement.

---

**Frame Condition:** Note the condition of the door frame. If it's damaged, consider whether repairs are necessary.

---
